

# VETERANS Appreciation

## AWARD PROGRAM

## Veterans Scholarship Program Information

America is grateful to its veterans. You have risked your life to protect our freedom. To honor the sacrifices you have made for your country, the Northwest Career Colleges Federation is partnering with member schools to provide scholarships to qualified servicemen and women and post 9/11 veterans.

The Veteran Appreciation Award Program provides \$500 and \$1,000 tuition scholarships at 26 member schools in Washington, Oregon and Idaho. Private career colleges offer education that prepares individuals for employment in specific occupations. NWCCF members are committed to a quality educational experience, delivered with efficiency and accountability.

To qualify for the awards, applicants must be active duty military or honorably discharged post 9/11 veterans and have not yet commenced study at the selected institution. To apply, go to [www.nwcareercolleges.org](http://www.nwcareercolleges.org) and click on the veteran's award application. You will be notified by email when your application is processed. You must complete the admissions process and start your program of study before the award will be granted.
